

DEPARTMENT PLAYBOOK

Customer Relationship Team

Your playbook for post-sales customer care in Agrocorp CRM — welcome documents, ongoing communication and keeping customers happy. For CRM Head and CRM Support.

CRM Head

CRM Support

User Manual · Find your task in the contents and follow the numbered steps.

Who this guide is for

ROLE	WHAT YOU DO	ACCESS
CRM Head	Owns post-sales customer care	View and manage customer-relationship records & post-sales; can edit leads
CRM Support	Assists with customer care	View only – can see records and leads, but cannot edit or manage

Difference in one line: the **Head** can edit records and drive post-sales actions; **Support** can view and assist.

Your home screen

The screenshot shows the Agrocorp CRM Dashboard. The left sidebar contains navigation links for Overview, Dashboard (selected), Tasks, Sales (Leads, Pipeline, Call List, Site Visits, Inventory, Import), Deals & Finance (Bookings, Collections, Demand Letters), and Messaging (WhatsApp Inbox). The main content area is titled 'Customer Success' and includes a subtitle 'Bookings, documentation and customer follow-ups'. It features four key metrics: Active Bookings (0 live customers), Docs Pending (0 to collect), Upcoming Visits (0 scheduled), and Open Tasks (0 across team). Below these is a 'Recent Bookings' table with columns for REF, CUSTOMER, DEAL VALUE, STATUS, and CREATED. The table is currently empty, showing 'Nothing here yet'. The bottom of the dashboard shows the user profile for Rohit Das (CRM Support) and a Dark mode toggle.

Customer Success dashboard – active bookings, documents to collect, upcoming visits and open follow-ups, with a table of recent bookings.

Your work centres on customers **after** a deal is confirmed: sending welcome documents, answering questions on WhatsApp, and keeping an eye on payments and milestones so customers feel looked after.

TASK 1 – Answer customers on WhatsApp

WhatsApp Inbox – conversation list, live thread and customer context.

- 1 Open **Messaging** → **WhatsApp Inbox**.
- 2 Use the **All / Mine / Unread** filters at the top to find waiting messages.
- 3 Click a conversation to read it in the middle pane.
- 4 The right pane shows the customer's details, stage and tags.
- 5 Type your reply at the bottom, or insert a **canned reply** for common questions.
- 6 Add a **private note** or a **tag** so colleagues have context.
- 7 Click **Open full lead** to see the customer's complete record.

Note: real WhatsApp sending/receiving works once the Admin connects the company account in Integrations. Until then it runs in demo mode.

TASK 2 – Send welcome documents to a new customer

- 1 Open **Sales** → **Leads** and find the customer (they'll be at a booked/won stage).
- 2 Open their record.
- 3 Go to the **Documents** section.
- 4 Click **Send welcome documents** (or attach and share the welcome pack).
- 5 Confirm the customer's contact details are correct first.

6 Save / send.

TASK 3 – Keep an eye on payments & milestones

Collections – use this to see where each customer stands on payments.

- 1 Open **Deals & Finance** → **Collections**.
- 2 See **Collected**, **Scheduled** and **Outstanding** at a glance.
- 3 Check **Overdue milestones** to know which customers may need a friendly reminder.
- 4 Reach out proactively over WhatsApp (Task 1) so customers stay informed.

Team play: the money actions (verify, demand letters) belong to Accounts. Your job is the customer relationship – gentle reminders, answers and reassurance.

TASK 4 – Look up a customer's full history

Leads – the full customer list with stage, source and owner.

- 1 Open **Sales** → **Leads**.
- 2 Search by name, phone or email (or press Ctrl/Cmd+K).
- 3 Open the record to read the activity trail, calls, WhatsApp history and documents.
- 4 Use the **Journey** tab to see exactly where the customer is in their journey.

Quick answers

QUESTION	ANSWER
Where do I reply to customers?	Messaging → WhatsApp Inbox.
Can I take payments?	No – that's the Accounts team. You handle the relationship and reminders.
I can only view records	You're on the Support role – the CRM Head can edit and manage.
How do I see a customer's full story?	Open their lead record and read the activity trail and Journey tab.
